Unity-of-Use Valuations

On the Valuation Roll, the value of the Farm Unit is displayed against a designated Master Property. The Master Property is usually listed first with the remaining units that make up the Farm Unit listed directly below. A reference number has been created using the Erf and Portion of the Master Property, and is used to easily identify the individual properties that make up the Unity-of-Use property. This is displayed in the Unit Column on the Valuation Roll. An asterisk (*) at the end of this reference number denotes the Master Property. (Please note that the displayed Extent is the extent of the Master Property and not the Combined Extent.)

In the example below, the 3 properties highlighted in blue have been valued in Unity-of-Use. The Combined Market Value for all 3 properties is R475,000. This value is displayed against the Master Property highlighted in the red box. The other two properties have an asterisk (*) under Market Value, as their value is included in the value displayed against the Master Property.

This principal has also been applied in some cases to other categories of properties such as Commercial and Industrial properties, where similar dependencies exist between adjoining properties.

Erf No.	Ptn	Rem	Farm Name	Owner	Category	Extent	Market Value	Unit
